

PANKAJ SHARMA

Data Analyst | SQL • Power BI • Excel • KPI & Dashboard Reporting

Kanpur, Uttar Pradesh, India | +91-8303598788 | pankaj.sharma.he@gmail.com

SUMMARY

Data Analyst with hands-on experience in SQL, Power BI, and Excel, skilled at transforming operational and sales data into actionable insights. Proven track record building KPI dashboards, automating reports, and driving data-informed decisions that improved efficiency by up to 20%. Strong foundation in data cleaning, trend analysis, and cross-functional collaboration, backed by a background in operations and supply chain analytics.

SKILLS

Power BI: DAX, Power Query, Data Modeling, KPI Dashboards, Slicers, Interactive Reports, Data Transformation.

Excel: Pivot Tables, Pivot Charts, INDEX-MATCH, VLOOKUP, Conditional Formatting, Data Validation, Dashboard Design, Advanced Formulas, Salary Automation.

SQL: Joins, Window Functions, Aggregate Functions, CTEs, Subqueries, Data Analysis.

Analytical Techniques: Data Cleaning & Transformation, Data Visualization, KPI Tracking & Dashboard Management, Sales Trend & Stock Analysis, Incentive Calculation

WORK EXPERIENCE

Data & Operations Analyst | BPCL

May 2025 – May 2026

- Analyzed quarterly and half-yearly operational audit data across the Retail Outlet (RO) network using Excel and SQL, identifying performance gaps and enabling data-driven decisions to improve efficiency and service quality.
- Built recurring reports on daily sales trends, inventory levels, and demand patterns to optimize load allocation and supply planning, reducing stock-out risk and ensuring uninterrupted operations.
- Tracked retail outlet performance against competitor benchmarks and market trends, delivering data-backed insights to dealers that supported sales growth and improved competitiveness.
- Designed KPI tracking dashboards and collaborated with cross-functional teams (Dealers, IFMS, vendors) to monitor maintenance performance, contributing to a 20% reduction in outlet downtime through proactive issue identification.

Quality Assurance Engineer | JBM Group

Aug 2023 – Sep 2024

- Analyzed production output, requirements, and inventory availability data to support manufacturing decisions in the Press Shop.
- Supervised manufacturing operations and managed shop-floor workforce allocation.
- Prepared audit reports, SOPs, check sheets, inspection reports, and data-driven presentations for stakeholders.

PROJECTS

Sales Performance Analysis | MySQL

- Analyzed 830+ orders and 77 products using complex SQL queries to identify sales trends and revenue drivers.
- Developed KPI reports using Joins, CTEs, Window Functions, CASE statements, and Aggregate Functions.
- Identified top-performing products, customers, and regions to support business decision-making, and improved query efficiency through optimized filtering and indexing.

Northwind Sales & Customer Analytics | MySQL

- Analyzed 2,000+ orders, customers, products, and suppliers using relational SQL queries.
- Built analytical reports using Joins, CTEs, Window Functions, CASE statements, Subqueries, and Aggregate Functions.

- Performed customer segmentation and sales trend analysis using ranking and aggregation techniques to identify top-selling products and high-value customers.

Sales and Revenue Analysis Dashboard | Power BI

- Built a sales analytics dashboard to track monthly sales trends, revenue performance, and target achievement.
- Designed interactive reports with KPI indicators, trend analysis, and category-wise sales breakdown.
- Used Power Query for data cleaning, transformation, and preparation.
- Applied DAX functions to calculate growth metrics, percentages, and performance indicators.
- Created visually appealing dashboards to support data-driven business decisions.

Employee Database Management System | MS Excel

- Created and managed a database containing 500 employee records with attendance, salary, and performance information.
- Used advanced Excel functions such as INDEX, MATCH, IF, SUMIFS, COUNTIFS, and VLOOKUP.
- Built Pivot Tables and dashboards for employee performance and salary analysis.
- Applied conditional formatting and data validation for data quality management.
- Streamlined data processing and reporting workflows.

AWARDS & CERTIFICATIONS

- Four-Week Internship at Hindustan Aeronautics Ltd.
- Academic Excellence Award in B. Tech for outstanding academic performance for three consecutive years.
- Best Final Year Project – 2023, KIT College: Designed and developed an electric bike powered by an 800W motor operating at 3100 RPM.

EDUCATION

Bachelor of Technology (B. Tech) in Mechanical Engineering
KIT College (AKTU), Kanpur

Graduation Year: 2023
CGPA: 8.49 / 10
